Re: May 10, 2011 Letter Certifying the Recordation of a Covenant to Restrict Use of Property at Polychlorinated Biphenyl Waste Site Building 842 UL#01 in Investigation Area C3, Eastern Early Transfer Parcel, Mare Island, Vallejo, California

Dear Mr. Farley:

EPA has received your certification of the recordation of a Land Use Covenant at Building 842 UL#01 dated May 10, 2011. The certification satisfies our July 15, 2005 request for compliance with the TSCA requirements under 40 CFR 761.61(a)(8)(i)(B) for implementation of a deed restriction at the property. Therefore, pursuant to paragraph 6(a) of the December 20, 2001 Consent Agreement and Final Order for the Mare Island Naval Shipyard Eastern Early Transfer Parcel ("CA/FO"), EPA hereby finds that you have demonstrated to EPA that no further action is needed with respect to PCB contamination under TSCA at the above referenced site. This determination of no further action is subject to and without prejudice to, EPA's Reservation of Rights as set forth in Section G of the CA/FO.

Please feel free to contact EPA staff Carolyn d'Almeida at (415) 972-3150 if you have any questions about this letter.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Montgomery", is written over a horizontal line.

Mike Montgomery  
Assistant Director  
Federal Facilities and Site Cleanup Branch
